

## **BDIAP Congress bursary report and attendance at virtual IAP/ ESP meeting**

- Thomas Habanabakize
- Year bursary awarded :2020
- Trust where employed: University of Rwanda/Ministry of Health
- Trainee grade: MD, Resident Year 4 Pathology

I extend my sincere gratitude to BDIAP for granted me the bursary to attend this special IAP/ESP virtual meeting. It was very educative meeting from different presenters on various topics of pathology of which I learned a lot of uncovered topics from my school program.

Moreover, I acquainted new faces of pathology whom I would contact for subspecialty of hematopathology or gynecopathology for they presented crucial and interesting topics that were more explicit on my side as resident in training. Besides, without BDIAP bursary, I wouldn't benefit from the above opportunities and more to come.

I look forward to advance my carrier of pathology upon similar educational events. Once again, thank you so much for tremendous support rendered to attend this IAP/ESP virtual meeting 2020

Warm Regards,

Thomas
