

Name: Katie Beauchamp

Year bursary awarded: 2020

Trust where employed: St Vincent's University Hospital, Dublin, Ireland

Trainee grade: Senior house officer, currently year two of training

I thoroughly enjoyed the virtual IAP-ESP meeting. I particularly enjoyed the Breast and Head and Neck sessions. I feel the benefits of the virtual meeting include ease of access, no need for travel or time off work. The main downside to a virtual meeting I feel is the lack of opportunity to meet colleagues. However, given the circumstances currently I feel the meeting was a great success and I was delighted it went ahead virtually. I look forward to in person meetings again when safe to do so.
