

Glasgow meeting report

My Name is Asteria H Kimambo, MD, MMED Anatomical pathologist at Muhimbili University of Health and Allied Science (MUHAS), Dar-Es-Salaam, Tanzania part of East Africa Division of the International Academy of Pathology (EADIAP).

I am so thankful to receive the Bursary from British Division of the International Academy of Pathology (BDIAP) to attend the 2020 Glasgow meeting. Despite the meeting be in virtual platform due to pandemic it was mandatory for people to learn Pathology but also to stay safe. I was able to learn add new skills and knowledge on my career. However, I would prefer more in person as it was easy to interact with other Pathologists all over the world.
