

## **Bursary report**

**Dr. Cynthia Chepkorir Chemonges**, Kenya, East African Division International Academy of Pathology

### **1. Why did you want to go to Liverpool Pathology 2023?**

I was eager to attend Liverpool Pathology 2023 because it represented a unique opportunity to stay updated with the latest advancements in the field of pathology. This conference was renowned for bringing together experts and professionals from various sub-disciplines within pathology. I was particularly interested in networking with peers, presenting my research poster, and gaining valuable insights into the ever-evolving field of pathology.

### **2. Do you feel more confident in your clinical practice following attendance at the Liverpool Pathology 2023?**

Yes, my confidence in my clinical practice has significantly grown after participating in Liverpool Pathology 2023. The knowledge and skills I acquired during the conference, especially in areas related to research and emerging technological trends in pathology, have provided me with a deeper understanding of my field. This newfound knowledge has translated into enhanced confidence in my daily practice.

### **3. Highlight aspects of what you have learned from the Liverpool Pathology 2023 which you were not aware of prior to the day.**

Liverpool Pathology 2023 introduced me to several aspects that were previously unknown to me. Notably, I gained insights into cutting-edge molecular aspects of pathology and the futuristic trends that are shaping the field. Additionally, the conference revealed the importance of interdisciplinary collaboration, which I hadn't fully appreciated before.

### **4. Are there any aspects of what you have learned during Liverpool Pathology 2023 that you would consider incorporating into your own practice or have already incorporated into practice?**

Absolutely, there are several aspects I plan to incorporate into my practice. Specifically, the emphasis on molecular aspects and their clinical applications presented at the conference has inspired me to explore integrating molecular techniques into my diagnostic processes. I have also

started implementing interdisciplinary approaches, engaging in collaborations with professionals from related fields to enhance the quality of patient care.

### **5. Did Liverpool Pathology 2023 meet your expectations?**

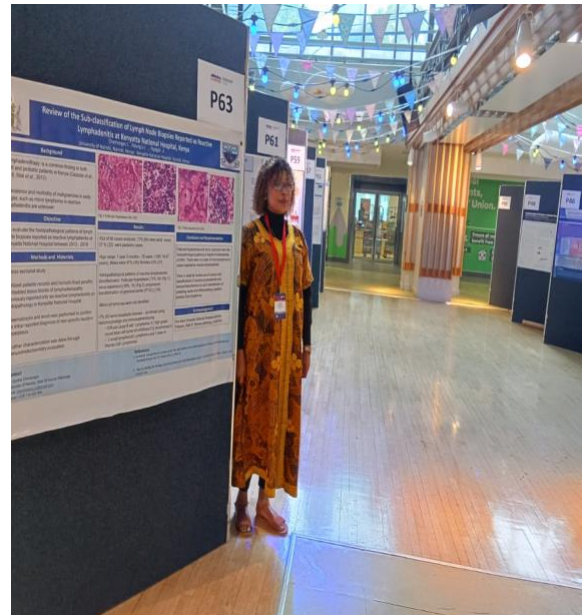

Liverpool Pathology 2023 exceeded my expectations. The conference provided a diverse range of learning and networking opportunities that contributed significantly to my professional growth. The quality of presentations, the depth of discussions, and the overall organization of the event were impressive and ensured that my expectations were surpassed.

### **6. Finally, would you recommend it to your colleagues?**

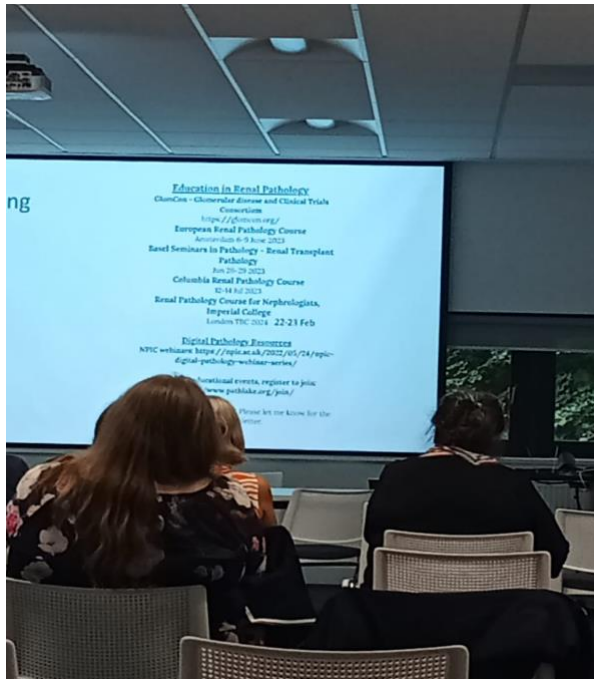

Without a doubt, I would highly recommend similar conferences to my colleagues. The conference not only offers a wealth of knowledge but also provides a unique platform for networking and collaboration. It is a valuable experience that can benefit anyone in the field of pathology and contribute to their professional development.
