

# Advances in Molecular and Clinical Diagnosis for Haematological Malignancies

Friday 25<sup>th</sup> April 2025, London

# Synopsis

This one-day hybrid event is dedicated to advancing the understanding of haematological malignancies.

The aim is to discuss blood cancer diagnostics, care and research by bringing together experts from the USA, Italy, France, Germany, Spain and the UK, who will provide updates on the classification of haematological malignancies, innovations in targeted therapeutics and cutting-edge insights into advanced diagnostics, including liquid biopsy and molecular pathology.

It will be a great opportunity for a diverse audience of haematopathologists, clinical haematologists, CNS nurses, researchers, and lay people, to network and develop interdisciplinary collaborations.

There will be a dedicated Poster Session that includes digital and up to 10 printed submissions. The topics of the posters should focus on how molecular techniques support refining routine diagnosis, challenging diagnostic cases, and research studies in clinical haematology and haematopathology from biology to the application of novel technologies.

Whether attending this event in person or virtually, this is a unique forum for learning about diagnostics, therapeutics, and innovations in haematological malignancies.

**For registration and poster abstract submission, follow the link:**

*Dept of Cellular Pathology  
UCLH/UCL London, UK*

# Advances in Molecular and Clinical Diagnosis for Haematological Malignancies

Friday 25<sup>th</sup> April 2025, London

The Royal Society of Medicine

1 Wimpole St, London W1G 0AE

08:15-08:35	<b>Registration</b>
08:40-09:10	<b>The future</b> Chairs: Prof Anthony Goldstone, London; Prof. Teresa Marafioti, London
08:40	<b>Welcome</b>
08:45-08:55 10 mins	<b>Opening: From Peter Isaacson to Lymphoma 2025</b> Prof. Miguel Piris, Madrid, Spain
08:55-09:10 15 mins	<b>The future ahead</b> Prof. Tom Grogan – Tucson, USA
09:15-10:35	<b>Genomic and Classification of Haematological Malignancies</b> Chairs: Prof. Teresa Marafioti, London; Prof John Goodlad, Glasgow
09:15-09:45 30 mins	<b>Keynote Lecture Historical evolution of the classification of lymphoma</b> (Invited Speaker)
09:45-10:10 25 mins	<b>Immunogenetics in small B cell lymphoma</b> Prof. Elias Campo – Barcelona, Spain
10:10-10:35 25 mins	<b>Follicular Lymphoma: from genetics to clinic</b> Prof. Leticia Quintanilla-Fend – Tübingen, Germany
10:40 – 10:50 Coffee Break 10 mins	
10:55-12:10	<b>Genomic and Classification of Haematological Malignancies</b> Chairs: Prof Maria Calaminici and Dr Ayoma Attygalle; London
10:55-11:20 25 mins	<b>The high-grade B-cell lymphomas and their borderlands</b> Prof. German Ott – Stuttgart, Germany
11:20-11:45 25 mins	<b>Molecular Biology of Burkitt Lymphoma</b> Prof. Lorenzo Leoncini – Siena, Italy
11:45-12:10 25 mins	<b>T cell lymphoma from biology to diagnosis</b> Prof. Philippe Gaulard – Paris, France
12:10-12:45	<b>Future of Lymphoma Classification and Q&amp;A Session</b> Prof Andrew Wotherspoon, London
12:15-12:35 20 mins	<b>The Paradigm of Primary CNS Lymphoma</b> Prof Maurilio Ponzoni - Milan, Italy
12:35-12:45 10 mins	<b>Q&amp;A Session</b>
12:50-13:35 Lunch 45 mins	
13:40-15:00	<b>B and T cell Lymphoma, Present and Future Therapies</b> Chairs: Prof. David Linch and Dr. Kirit Ardeshta, London
13:40-14:00 20 mins	<b>From lab discovery to clinical trial</b> Prof. Reuben Tooze – Leeds, UK
14:00-14:20 20 mins	<b>Bi- and Multi-specific Antibodies therapy</b> Dr. William Townsend – London, UK
14:20-14:40 20 mins	<b>Clinical Advances in T cell lymphoma</b> Dr. Kate Cwynarski – London, UK
14:40-15:00 20 mins	<b>Targeted therapy for Hairy Cell Leukaemia</b> Prof. Brunangelo Falini – Perugia, Italy
15:05-15:15 Tea Break 10 min	

**Advances in Molecular and Clinical Diagnosis  
for Haematological Malignancies**

**Friday 25<sup>th</sup> April 2025, London**

**The Royal Society of Medicine**

**1 Wimpole St, London W1G 0AE**

15:20-16:30	<b>Advances in Haemato-Oncology and Q&amp;A Session</b> Chairs: Prof. Manuel Rodriguez-Justo, London; Prof. Ming-Du, Cambridge
15:20-15:35 15 mins	<b>K/L ish mRNA</b> Dr. Marta Canamero – Penzberg, Germany
15:35-15:50 15 mins	<b>Comprehensive testing by Euroclonality NGS DNA capture panel in routine diagnosis of lymphoma</b> Prof. Stefan Dojcinov – Swansea, UK
15:50-16:05 15 mins	<b>Circulating tumour DNA in lymphoma: future directions</b> Prof. Davide Rossi – Bellinzona, Switzerland
16:05-16:20 15 mins	<b>Impact of Molecular Testing to Clinicopathological Diagnosis</b> Dr. Rajeev Gupta – London, UK
16:20-16:30 10 mins	<b>Q&amp;A Session</b>
	<b>Poster Session</b>
16:30-16:45 15 min	Dr Sabine Pomplun, London; Dr Heba Ali, Leeds and Dr Muntasser Al-Sharabati; London, UK
	<b>Sum-up and Conclusion</b>
16:45-17:05 20 min	Prof Falko Fend – Tübingen, Germany
