

BDIAP BITESIZE VIRTUAL WORKSHOP SERIES

DR JAN VON DER THÜSEN

A DIAGNOSTIC APPROACH TO MEDIASTINAL MASSES

17th AUGUST 2023

15.00 - 17.00

The BDIAP Virtual Workshop series is designed to connect trainees and consultants with **world-renowned histopathologists** through interactive educational slide seminars

Dr. Jan von der Thüsen is a histopathologist with subspecialist interests in thoracic and cardiovascular pathology, and current president-elect of the BDIAP.

Thüsen received his medical training at the Universities of Cambridge (UK, Trinity College) and London (UK, Imperial College), and his specialist training at Leiden University Medical Centre (The Netherlands). His Ph.D. was also awarded by Leiden University for research into gene therapeutic approaches to atherosclerosis.

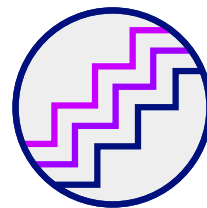

He developed his subspecialist interest in thoracic pathology during appointments as consultant histopathologist and university lecturer at the Academic Medical Centre in Amsterdam (The Netherlands), and the Royal Brompton & Harefield NHS Foundation Trust in London. Thüsen currently works as the lead thoracic pathologist at the Erasmus Medical Centre in Rotterdam (The Netherlands), where his research interests include the pathology of neoplastic diseases of the lung and mediastinum, fibrotic lung disease, as well as the pathology of pulmonary and cardiac transplantation.

Interactive case-based discussion centred around digital slide sets

Contribute your thoughts; ask and answer questions throughout the session

Cases perfectly suited to trainees in histopathology (ST2-5+). Consultants also invited to attend.

REGISTRATION FREE FOR BDIAP MEMBERS

£12 For Non-BDIAP Members (or join the BDIAP today!)
